In either case, prior to the agreement, the Customer will be informed of all rates and charges for the services the Customer desires and any other charges which will appear on the Customer's first bill.
 - B. If the agreement is oral, within 10 days of initiating the service order, the IEC will provide confirmation with a brief description of the services ordered and itemizing all charges which will appear on the Customer's bill. The letter must be in language other than English if the sale was in another language.
 - C. Within 10 days of initiating service, the IEC will state in writing for all new Customers all material terms and conditions that could affect what the Customer pays for telecommunications services provided by the IEC.

C. Notification to the Subscriber

- 1. Except as provided below, the subscriber whose credit information or calling records are requested by judicial subpoena or search warrant will be notified by the utility by telephone the same day that the subpoena or search warrant is received (only one attempt by telephone is necessary) Telephone notification, whether successful or not, will be followed by written notification within twenty-four hours after the receipt of the subpoena or warrant.*

Rule 26 - Legal Requirements for Refusal or Discontinuance of Service

California Public Utilities Commission's Decision No. 91188, in Case No. 4930, requires that each communications utility, operating under the jurisdiction of the Commission, include the provisions of the rule set forth in Appendix "B" of that decision as a part of the rules in the Utility's tariff schedules. Accordingly, Appendix "B" of Decision No. 91188, Case No. 4930, is quoted herein:

"Appendix B "

1. *Any communications utility operating under the jurisdiction of this Commission will refuse service to a new applicant and will disconnect existing service to a Customer upon receipt from any authorized official of a law enforcement agency of a writing, signed by a magistrate, as defined by Penal Code Sections 807 and 808, finding that probable cause exists to believe that the use made or to be made of the service is prohibited by law, or that the service is being or is to be used as an instrumentality, directly or indirectly, to violate or to assist in the violation of the law. Included in the magistrate's writing will be a finding that there is probable cause to believe not only that the subject telephone facilities have been or are to be used in the commission or facilitation of illegal acts, but that the character of such acts is such that, absent immediate and summary action in the premises, significant dangers to public health, safety, or welfare will result.*
2. *Any person aggrieved by any action taken or threatened to be taken pursuant to this rule will have the right to file a complaint with the Commission and may include therein a request for interim relief. The Commission will schedule a public hearing on the complaint to be held within 20 calendar days of the filing of the complaint. The remedy provided by this rule will be exclusive. No other action at law or in equity will accrue against any communications utility because of, or as a result of, any matter or thing done or threatened to be done pursuant to the provisions of this rule.*
3. *If communications facilities have been physically disconnected by law enforcement officials at the premises where located, without central office disconnection, and if there is not presented to the communications utility the written finding of a magistrate, as specified in paragraph 1 of this rule, then upon written request of the subscriber the communications utility will promptly restore such service.*

4. *Any concerned law enforcement agency will have the right to Commission notice of any hearing held by the Commission pursuant to paragraph 2 of this rule, and will have the right to participate therein, including the right to present evidence and argument and to present and cross-examine witnesses. Such law enforcement agency will be entitled to receive copies of all notices and orders issued in such proceeding and will have both:*
 - (1) *the burden of proving that the use made or to be made of the service is prohibited by law, or that the service is being or is to be used as an instrumentality, directly or indirectly, to violate or to assist in the violation of the law, and that the character of such acts is such that, absent immediate and summary action in the premises, significant dangers to public health, safety, or welfare will result and*
 - (2) *the burden of persuading the Commission that the service should be refused or should not be restored.*
5. *The utility, immediately upon refusal or disconnection of service in accordance with paragraph 1 of this rule will notify the applicant or subscriber in writing that such refusal or disconnection has been made pursuant to a request by a law enforcement agency, naming the agency, and will include with said notice a copy of this rule together with a statement that the applicant or subscriber may request information and assistance from the Commission at its San Francisco or Los Angeles office concerning any provision of this rule.*

Rule 26 - Legal Requirement for Refusal or Discontinuance of Service *(cont'd)*

6. *At the expiration of fifteen days after refusal or disconnection of service pursuant to paragraph 1 of this rule the utility, upon written request of the applicant or subscriber, will provide or restore such service unless the law enforcement agency concerned will have notified the utility in writing of its objection to such provision or restoration of service, in which event service may be provided or restored only in a complaint proceeding pursuant to paragraph 2 of this rule. At the time of giving any such notice of objection, the law enforcement agency will mail or deliver a copy thereof to the applicant or subscriber.*

Nothing in this paragraph will be construed to preclude the granting of interim relief in a proceeding initiated pursuant to paragraph 2 of this rule.

7. *Each contract for communications service, by operation of law, will be deemed to contain the provisions of this rule. Such provisions will be deemed to be apart of any application for communications service.
