

IntelPeer CoreCloud™ SIP Trunking for Avaya® Unified Communications

Get More from Your Avaya Unified Communications Investment

Today's economic realities require enterprises to boost productivity by fostering greater collaboration between employees, customers and partners while simultaneously reducing costs. For effective collaboration, businesses need communications that seamlessly connect across enterprise locations and branch offices, to customers, vendors and partners, and to the world at large. SIP trunking accelerates collaboration as an on-demand service delivered over the converged IP network, with the potential to truly transform enterprise communications.

IntelPeer® simplifies your migration to SIP, delivering new capabilities that extend the value of your Avaya UC investment, simplifying your network infrastructure and reducing communications costs, all while delivering the reliability and continuity you have come to expect for your mission-critical communications services. IntelPeer's cloud-based, Communications-as-a-Service (CaaS) platform, CloudWorx™, connects disparate communications networks and UC environments, enabling our unique CoreCloud™ SIP Trunking services that deliver multimodal capabilities such as voice and video to anyone, anywhere, on any network and device, worldwide.

Enhance Your UC Solution with IntelPeer CoreCloud SIP Trunking Services

Enterprises can now easily extend their advanced UC capabilities across the telecommunications cloud. IntelPeer SIP Trunking has been certified for Avaya Aura Unified Communications and Avaya IP Office. Through our Media Peering Grid™ and SuperRegistry® directory of more than 450 million telephone numbers, we provide a direct connection to peered service provider and enterprise networks. Media remains on high quality IP networks end-to-end, thereby preserving capabilities such as video and high definition audio and ensuring the highest possible quality.

Manage Your Service with Simple, Easy-to-Order SIP Trunking Packages

Why deploy a next generation UC solution with a per-minute legacy connectivity solution? IntelPeer CoreCloud™ SIP Trunking bundles are optimized for today's UC platforms with all-inclusive, flexible packages with predictable costs available by the port or per end user. You have complete control over your budget with no setup fees, surcharges, or surprises. Additions and changes are a snap through our CloudCentral™ web-based customer portal providing comprehensive control over your service.

IntelPeer: A Leader in Cloud Communications

Powering your Avaya UC solution, IntelPeer CoreCloud SIP Trunking services include an unmatched set of capabilities that truly deliver on-demand communications with the scale of the Cloud.

- Flexible pay-as-you-go services and bundled solutions to meet your specific needs
